2017 — 2018

AVAILABILITY

On-site or hybrid —
Luxembourg

PROFESSIONAL SUMMARY

Senior Full-Stack Developer with 8+ years building mission-critical SaaS for healthcare and finance in Luxembourg. Delivered CNS PID V2 healthcare payment integration, real-time EMR systems, and Benelux banking API platforms (Belfius, BNP Paribas Fortis, Cofidis, Elantis) — with full ownership from frontend to backend and infrastructure. Expert in PHP, Laravel, Vue.js, React, TypeScript and Node.js. Proven ability to architect, ship and maintain complex regulated systems independently. Currently integrating AI-assisted workflows (Claude Code) into production development pipelines — from automated code review to LLM-powered feature delivery.

PROFESSIONAL EXPERIENCE

Doctipro

July 2025 — Present

Full Stack Developer & Tech Lead — Healthcare SaaS

Healthcare SaaS — Clervaux, Luxembourg · On-site

- Architected and delivered an ophthalmology SaaS integrated with the Luxembourg national health system — CNS PID V2, CNS eCIT & LuxTrust
- Led technical architecture, technology decisions, and code review gating — introduced CI/CD via GitHub Actions and agile sprint tracking with GitHub Projects for PO collaboration
- Identified and patched critical security vulnerabilities (RCE, IDOR, XSS) through defensive pentesting
- Designed DevOps infrastructure — Nginx reverse proxy and Supervisor for Laravel Reverb process management
- Integrated ophthalmic medical devices via Node.js
- Integrated Claude Code into code review pipeline — automated security and quality gates before pre-prod merges

Référenceur

January 2024 — July 2025

Full Stack Developer — Financial SaaS

Financial SaaS — Weiswampach, Luxembourg · On-site

- Sole architect and developer of a white-label financial SaaS — mortgage & credit management with submission to external banking APIs, from requirements analysis to production
- Implemented full test coverage — Playwright E2E, feature and unit tests across the entire platform
- Built a fully customizable white-label engine — per-broker domain, email, branding, loan simulators and forms, configurable without code
- Managed project delivery end-to-end — client needs analysis, ticket management and sprint planning solo
- Billing automation via Zoho API; CLIP payment gateway integration
